Black Hawk Indian difficulties of Wasatch Co 1865 & Commenced by a Drunken White Man of Manti City San Pete Killing an Indian Chief from his Horse in Summer 1865. Which caused the Indians angery & went to Stealing Cattle, and Killing the Herders, Wasatch Co Suffered no loss in 1865. Word came from Headquarters S.L.City. to prepare to defend, ourselves from Indian raids. Build Corralls, Herd the Stock. Outside Settlers to move to Heber City & to Midway.
We were already an Organised body of Militia from 1861.
In the Month of April 1866 we commenced Building Corralls, In Ross-hollow 10 Miles North of Heber. For the dry Stock.
And it was thought wise to Build a corrall on Main St. for Cowherd A Platoon of Militia were detailed for this duty Serving 3 days Being relieved by another Platoon the third day Consisting of 10 men. By the Middle of May Corralls Completed, All dry Stock Herded Days & Nights Corralled.
And about this time Indians made a raid on the Stock ranging on the Hill East of Heber. Mostly Cows. Snow very deep on Divide between Indian Reservation & Provo Valley. We thought no danger yet of Raids on our Stock. Indians come over in Night While Snow Crusted. The got away with quite a lot of Cattle. Bradley & Jeffrions whole Cow herd gone 7 head Cows A Company on horseback started after the Indians with the Stolen Stock got to the Snowline on the Divide found the Indians had rushed the Stock over while Snow crusted. The arrived in the day time Snow soft. Horses plunged belley deep in Snow impossible to follow

On the 8th of July another Expedition went with supplies
for the Indians in Charge of Major John Hamilton
With Sealed Orders to be Opened on first Camp ground
There were considerable jealousy in Camp as to the Commander
And a division occured when Company started to returns home.
Wm. M. Wall invited a few to join him & they would take Short Cut
home, going up Duchesne West Fork & over Ridge into Lake Creek.
Cutting off 2/3 of distance of Travel. Could make the trip about one day.
The rest of Company followed the regular traveled route to Heber.
Mr Wall & his Company started against the orders of the Commander
to stay together for protection. They were going into the Indian Country
They followed the Indian trail, and we had 2 or 3 scouting parties
watching these trails. The party of men got over the ridge into Lake Creek.
without any trouble. & Concluded to Noon in a depression surrounded by Trees
Was warm laid down to rest. 3 Scouts struck their trail followed
them to their resting place. Crawling up to the Grove looking through bushes
thinking all the time were on trail of Indians. saw some objects
looked like heads of Indians. so 2 of the men fired, Geo. A Wilson &
Thomas Hundley. Bradley Session says hold on boys don't fire yet
but as he spoke about the same time as the others fired guns two late.

2nd Expedition continued, another band of Scouts had got on the trail & had seen that they were our own people Just as the men fired the arrived. & shouting told us Boys you are firing on our own men Geo. & John Muir were the Scouts well there were 3 men wounded. Wm. M. Wall a shot went through his clothes from one breast to the other scarcely any wound. The Bullet made a red crease across his breast. Geo. Bower of Midway had his leggs crossed one knee above the other. Scouts aimed for that thinking it was Indians the Bullet passed through fleshy part & hit N. C. Murdock in the foot Mr Murdock had one leg over the other & foot was elevated. The Scouts were excited only some 2 or 3 days before the Indians had made a Raid come into Heber took a yoke of Oxen & the pet "left the Bell Cow" from Scout Thos. Hundley No Wonder at Scouts being excited. They wanted to get even and thought they had a chance to get revenge on the Indians as well as regard the raid on Mr Hundley Cattle A company of men followed the Indian trail over on West fork of the Duchesne River, when the got over the ridge saw a smoke down in timber, Boys left their Horses crawled through grass about 1/2 Mile. Got onto the Indians before they knew it. They had killed the heifer, & roasting some of it. One Indian set on the ranch picking the pet. Boys fired & wounded him over another one wounded crawled into the Brush. The Boys got the Oxen brought them back to Heber. Never stopped to see how many Indians were killed while the Expedition of the 9th July was at the Reservation delivering the supplies. Wm. McDonald was talking to some Indians, here come a squaw quite excited pointing to the Hills She took another Horse Back with her in haste. Indians said, Indian wounded in the Hills that was all the said Putting the two circumstances together fixes the date of the Raid on Hundleys Cattle from the 8th to 16th of July An Express started for Heber for a Team to bring in the Wounded Both the parties arrived in Heber about the same date This circumstance is a Warning to all to obey orders. You see this Company of men were on Indians Grounds Scouts were not expecting any of our own men coming across the Indian trail, Expecting to only find Indians That was why the shooting, never thinking of White men being along the trail. supposing all were on the usual route

Expedition to Iowa disapproved by Veterans

Joseph McDonald

Minutes of Meeting War Veterans in Tuners Opera House
Experience of Joseph McDonald. Related in his
Speech at the 9th Annual Reunion of Veterans.

" My Brothers & Sisters & Comrades, I feel highly honored
" today, by having the privilage of saying a few words,
" on this occasion. I want you all to understand that
" we old Veterans, are not here to kill any Indians.
" & dish them up in soup. We have come here today,
" to be united, & to shake hands, & renew old acquaintance.
" I am requested to tell something about the Black Hawk War.
" & about Brigham Young, sending 1000 head of Cattle
" out to the Indians. Now, it don't matter how much
" I explain or tell this to you, you would hardly believe it.
" Because the times are so different then, they were at that
" time, Now it looks like it would be impossible,
" but nevertheless it is true.
" In the first place the Chief Black Hawk was a little
" further south then we were sent. They had runners &
" both tribes of Indians knew what were going on.
" They finally got Tabby Chief. Old peaceable Tabby. I suppose
" you all know him. They got him to believe he had been
" done wrong unto. Then Pres. Young got to hear about this.
" He sent the Cattle out, Also sent a letter Capt. Wm. Wall
" & he says they should get some men to take those Cattle out
" & settle the trouble with the Indians, & if those Men would
" go he prophesied that not hair of those heads would be hurt.
" We were asked to go out, & we went out & not one hurt.
" A little accident occured on the road, a open accident event
" off those the thing itself, one horse shot dead another one shot
" in Back, got loose went home. The People especially Womens
" thought that we had had a War & that we were all killed.
" & that horse was the only one to come out alive.
" We got out there & we found a mail Carrier there, But we
" found no Indians there. They had a carries come in from
" from out to the Agency & he would go into the Agency house,
" He wouldn't come around to us, to find out what was
" going on. We stayed there & had to keep pretty close
" watch on those Cattle so that the Indians could not steal
" them, We were sent there to deliver those Cattle to the Indians
" & Come to a Settlement. There was a Post there, & the Men
" there seemed & proved to be our great friends in need.
" Agent Came over to us, & says "Gentlemen" you are in for it.
" he said that Indians were excited, & that the Carrier had told
